

**TOTAL POOL**  
SERVICES

YOUR COMMERCIAL POOL SPECIALISTS

Here at Total Pool Services we believe that a successful project requires all the specialist areas to be integrated from the start of the design process. Designing and building a swimming pool is quite unlike any other building project. Our experienced team manage the entire installation process from initial design to completion, and beyond.

We have built up a respectable clientele over the years from working on projects for Park Holidays, Park Dean, UK hotel chains and Leisure centres. With years of experience and our dedicated teams of designers, engineers and project managers we have been able to deliver projects successfully.

We have a variety of services we can offer commercial clients and facilities which include:

- **Equipment servicing**
- **Flume servicing**
- **Boiler and heating servicing**
- **Surveys and reports**
- **Maintenance contracts**
- **Water treatment systems**
- **Microbiological testing**
